SECOND TERM TEST OF ENGLISH

Read the following text then do the activities below

Fast food had gained a huge popularity around the especially among teenagers. I wanted to know more about the secret of youngsters' love of fast food in Algeria. I surveyed a group of 100 secondary school students ; I asked them about their preference to this particular food.

The majority of informants confirmed that they liked eating fast food because they have no time to go home since they're busy with their schedules. Besides being cheap and convenient, most of questioned teenagers find that junk food is delicious and tasty. Some participants think that fast food is a perfect occasion to meet friends and to enjoy meals. In addition to this, pupils stated that fast food is an attractive place where they can feel relaxed as no one would tell them to keep quiet ; they can chat or laugh loudly and it's alright. Few informants said they loved a specific food because they liked its advertisement on tv.

Finally, several studies concluded that the excessive salt and fats contained in junk food may cause obesity, heart disease, and diabetes.
